

HWH® Pocket Door and Interior Step Cover Hydraulic Power Systems

Power your Pocket Doors & Interior Step Covers with HWH®.

Hydraulic power is widely used for its strength and durability. Another benefit of hydraulics is that it's quiet. HWH® has taken advantage of this benefit to power RV pocket doors and interior step covers. Our hydraulic mechanisms are so quiet and smooth that you really can sneak to the bathroom in the middle of the night without waking your guests.

Mechanism is lightweight and shares components with the HWH® leveling system, maximizing weight savings.
